

General Provider Communication

*Maricopa County Regional Behavioral Health Authority
Magellan Health Services of Arizona, Inc.*

Dear Provider,

The Arizona Department of Health Services (ADHS) is asking for your organization's participation in a survey they are currently conducting on the workplace environment of lesbian, gay, bisexual and transgender (LGBT) staff and clients. The purpose of the survey is to gain a better understanding of the current state of your organizational policies and procedures concerning the workplace environment of LGBT staff and clients.

Your organization's feedback in this annual survey is important and invaluable to ADHS, as we continue to work to together to address system change and training needs in the behavioral health system, and work towards improving services for LGBT communities in a sensitive and culturally effective manner.

Please note: Participation in this survey is voluntary; there is no right or wrong answer. ADHS would ask that the appropriate organizational leader, who is knowledgeable and has a strong understanding of your organization's policies and procedures, complete the survey.

[You may access the survey here.](#)

If you have questions regarding the survey, please contact Aimee Sitzler, evaluation and suicide prevention coordinator for the Southwest Interdisciplinary Research Center, at (602) 509-6559.

ADHS would like to thank providers in advance for their participation in the survey!
