## **TIPS ON CALLING AN AGENCY FOR MENTAL/BEHAVIORAL HEALTH SERVICES**

- Step 1: Pick an agency you would like to call from the attached list.
- Step 2: Pick up the phone and dial the number.
- Step 3: Let the person on the phone know that you want to know more about their services.
- Step 4: Ask if they have (whatever type of help you need) services.
- Step 5: Ask about how much the services cost. Ask if they have a sliding fee scale (where you only pay what you can afford).
- Step 6: If they offer the services you need, ask to make an appointment.
- Step 7: Verify the time and day of appointment, the name of the person you will meet, and the address of where the appointment will be held.
- Step 8: Ask any other questions you may have then thank the person for helping you.

**Community Health Centers**

The Community Health Centers (CHCs) and the Sliding Fee Community Clinics provide “Primary Care Services” to any person regardless of whether they have insurance or not. To find a health center, visit <http://FindAHealthCenter.hrsa.gov>.

**Payments**

Eligible patients will pay for the services they receive on a sliding fee scale basis. A sliding fee scale shows how much a person will have to pay for the care they receive at the clinic. The scale is a discounted rate for the cost of the service based on how much money the person earns. Patients are asked to pay only for the services they receive at the clinic at the time the services were received. Sliding fee scales AND services may differ from clinic to clinic. Below is a sample\* sliding fee scale:

Income Range	Sliding Fee Scale
0%-100% FPL	Patient pays 25% of service cost
101%-150% FPL	Patient pays 50% of service cost
151%-200%FPL	Patient pays 75% of service cost
Above 200% FPL	Patient pays full cost of service

\*NOTE: This scale is an example and may differ from clinic to clinic.

Peer Support Groups provide free information, education, empowerment, and support to adults diagnosed with a mental illness as well as their family members and loved ones. While Peer Support Groups should not be considered as a substitute for treatment, they can often be a complement to treatment. **Employment Networks (ENs)**

There are eight Employment Networks (ENs) listed for Maricopa County (not including VR) and 15 outside the state. EN’s provide services under the Social Security Ticket to Work Program. They provide support services to those on SSI/ SSDI and receiving cash benefits in order to help them go back to work. They can assist with job development, job placement, resume writing, interviewing skills, and job retention services. Under the Ticket to Work, EN’s have the option of accepting a ticket depending on an individual’s service needs.

When ticket holders receive information about EN’s, they should contact EN’s to find out those able to provide the needed services. Once a recipient finds the appropriate EN, they can assign the Ticket to that EN to receive services. **Tickets in-use with an open Vocational Rehabilitation case cannot assign their ticket to an EN.** Maximus updates the EN list; please encourage Ticket holders to contact Maximus for a current list.

**Apprenticeships**  
**Arizona Apprenticeship System**  
Apprenticeship is a proven strategy that combines on-the-job training with related theoretical and practical classroom instruction to prepare exceptional workers for Arizona's industry. Registered apprenticeship is a training system that produces highly skilled workers that meet the demands of employers competing in a global economy.

Private and public sectors – individual employers, employer associations or joint labor/management sponsors, operate registered apprenticeship programs. Program sponsors pay most of the training costs while also paying progressively increasing wages to apprentices as they gain skills. Registered apprenticeship programs can be competency based or time based depending on program sponsor needs.

Arizona has more than 100 registered apprenticeship programs in such industries as agriculture, forestry, and fishing; mining; construction; manufacturing; transportation, communications, electric, gas, and sanitary services; services; and public administration. More than 3,100 apprentices are currently registered in apprenticeship programs in Arizona.
