

## *General Provider Communication*

*Maricopa County Regional Behavioral Health Authority  
Magellan Health Services of Arizona, Inc.*

Dear Provider,

Great news! Magellan of Arizona announces the start to its second annual Computer Program, which provides Magellan service recipients and their families with a unique, influential recovery tool - a computer!

This year Magellan of Arizona will give away 250 computers to service recipients and family members involved in their recovery, as well as 50 to peer/family run and provider agencies. That's 300 free computers to aid residents in our community!

A computer could mean all the difference to a successful recovery and resiliency process for a service recipient. We ask that you encourage ALL qualified service recipients and family members involved in their recovery to apply to receive a FREE computer. Please print several copies of the application (in English and Spanish) and poster and place them in prominent, high-traffic areas in your facility. **The deadline for applications is November 7, 2008 at 5 p.m.** Please refer to the applications and poster linked below for further information regarding program qualifications and deadlines.

If you have questions about the Computer Program, please contact Alexandra Zavala, director of community reinvestment, at (602) 797-8288 or at [MaricopaCommunityReinvestment@MagellanHealth.com](mailto:MaricopaCommunityReinvestment@MagellanHealth.com)

We are counting on you to spread the word about the Computer Program! Help us get computers to those members of our community who truly need them.

Thank you!
