

## General Provider Communication

Maricopa County Regional Behavioral Health Authority  
Magellan Health Services of Arizona, Inc.

Dear Provider,

Magellan would like to notify you of a recent enhancement made to the Submit a Claim Online application on the provider Web site. The enhancement was promoted to production last night Monday, April 20, 2009. In addition to the enhancement, Magellan added eligibility inquiry within the application. This will allow us to populate as much of the patient information as possible for new claims. The application notice below was recently posted online.

Application Notice ::

[Submit A Claim Online](#)

### Application Enhancement

The Submit a Claim Online application has been updated to include the search page from the Eligibility Inquiry application. Once a search has been executed and results are returned, users can either select the member to populate the Patient/Insured page or click the link provided in the top paragraph to proceed to the Patient/Insured page to manually enter the member data.

**Don't show me this message again.**

Thank you.

*If you have questions about the enhancement, please contact your provider relations liaison.*
