

General Provider Communication

*Maricopa County Regional Behavioral Health Authority
Magellan Health Services of Arizona, Inc.*

Dear Provider,

With the recent elimination of the COOL program (provider communication #249 from February 2009), Magellan would like to take this opportunity to remind providers that **there is a COOL data field on the data demographic**. Please ensure that the data submitted on your demographic is correct and that the demographic field "SP COOL" **only** contains the values "N" (no) and "X" (not applicable due to age, as this program was only for age 18 and older).

Thank you in advance for submitting correct data demographics with regard to the COOL program. We really appreciate your attention to this matter.
